1. To identify the main barriers or difficulty in reducing plastic from the household's garbage or garbage by any factory.
2. To curb plastic pollution.
3. Identifying, predicating, and evaluating economic, environmental and social impacts of development activities.
4. To spread awareness about the hazards of plastic.
5. To import knowledge about the reduction and re use of plastic.
6. To understand the use of the alternatives of plastic.
7. To contribute towards preserving the environment and reduction of plastic pollution.

Activity:

Central India Women's College of Education organized Plastic Free Awareness Program Campaign at college premises.

The program started by 10.30 am all the faculty members and students were present over there.

Plastic, which is a hazardous material, is manufactured very easily, however when it comes to time of disposal or destroying this, it causes pollution to the environment. This was an initiative driven by B.Ed. students of Central India Women's College of Education a campaign was organized on 1th June 2022 to spread awareness about hazards of plastic.

Students had announced there would be a campaign and hung on the notice board with the details (date and time) of the campaign. Students clean the premises of the college also conveying the message "Say No to Plastic"

We educated the students on the importance of plastic free environment. The more people understand how using and throwing away plastic can cause detrimental impacts on the environment and their health. The better chance more people can be together to create healthier planet and a healthier version of themselves.
