Learning to use Computer in Education (Computer Project)

Total Hours: 60, Credit 2 (Marks: 50)

Practical: 1 Review of an Educational Website: Marks 15

Name of the Student: ESHA GOEL

Website Link: <https://www.khanacademy.org>

Criteria for the Review of an Educational Website

Layout of Webpage.

The website is aligned properly and looks simple but easy to browse. The complete information can be gained by scrolling up and down. It has various tabs on which we can tap and get the informations.

Website Design.

The website is designed in such a way that it is user friendly. It contains several tabs, graphics, animations, texts, links, hyperlinks, etc. The website is easily accessible.

Colour combination used in Website.

The background of the website is white in colour. The write ups are in black colour which makes it clearly visible and readable. It is bright multicoloured attractive pictures.

Appropriateness of Design for Audience.

This website is designed for students, teachers and parents to help them gain scientific knowledge. The website is easily accessible for all because it has age specific tabs with age appropriate contents.

Informative Aspects of the Website.

The website addresses to the learning queries of students, teachers, and parents along with scientific explanation which are depicted in the form of videos and interactive sessions. It develops a scientific outlook also among the users.

Interactive Nature of the Website.

The website has an interactive mode also where users can interact with counsellors through live video call or live text chats. It also has videos and games incorporated in it to solve the queries.

Shikhale  
PRINCIPAL  
Central India Women's College Of Education  
Nagpur

#### Readable Nature of the Website.

Khan academy is a web friendly website. Non tech savvy person can also use it efficiently. The presentation is readable and easily understandable because of the simple text language used in it.

#### Skimming Nature of the Website.

It is to have a quick look over the contents to understand the nature of the website. Self descriptive headings, images, easily understandable language gives a quick overview of the website for users of all ages.

#### Provision of Hyperlinks.

There are many hyperlinks used in the website to provide in depth knowledge to the users. The hyperlinks are boldly and clearly highlighted in the website and appropriately positioned.

#### Frequency of Updating of the Website.

The website is frequently updated to incorporate recent informations. It was last updated in 2019.

#### Authenticity of the Information provide on the Website.

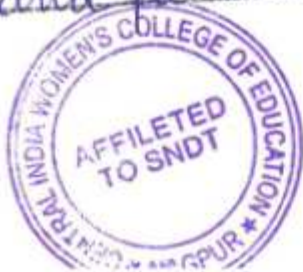

The website definitely contains authentic and subject related informations. The reviews and testimonials provided by the users also certifies the effectiveness of using the website in subject related learning process.

#### Quality of Images and videos provide on the Website.

The images used in the website are colourful, attractive and self descriptive. The videos used in the website are informative and clears the concepts effectively.

#### Use of Website for the Visitors.

The website is very useful for users of all ages with age appropriate content. It also tries to bridge the gap between students, teachers and parents.

## What is water?

- Water is made up of tiny molecules of hydrogen and oxygen
- Water is colourless, odourless and tasteless

## Forms of water

Water exists in 3 forms:

- Solid ( ice, snow, hail, frost)
- Liquid ( in lakes, rivers, rain, oceans)
- Gas (water vapours)

		
<b>Solid</b>	<b>Liquid</b>	<b>Gas</b>

*Chikate*  
**PRINCIPAL**  
Central India Women's College Of Education

## Where can we get water?

- About 97% of the water on the Earth's surface is in the world's oceans
- Rest 3% of water is found in:
  - Rivers
  - Lakes
  - Polar ice caps
  - Clouds
  - Rain
  - Sea ice
  - Stored in rocks (aquifers)

## SOURCES OF WATER

Well

Rain

River

Tap

Lake

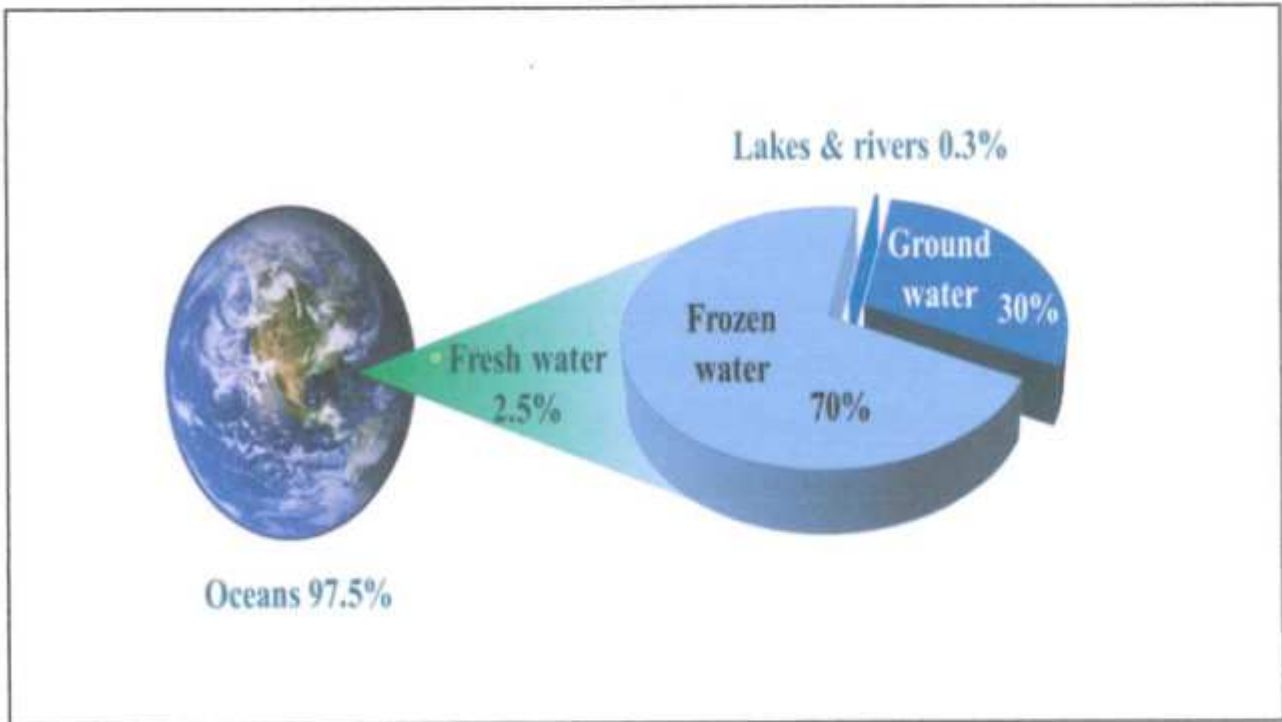

Stream

## Why do we need water?

- To carry nutrients and water in the body
- To lubricate joints, digestive tract and body tissues
- To maintain body temperature
- To be used in factories, houses; agriculture etc.

*Shikhe*  
PRINCIPAL  
Central India Women's College Of Education,  
Nagpur

## How much water do we need?

- Adult human beings need about 6-8 glasses of water each day
- Children needs 5-6 glasses of water each day
- More water may be required during illness
- Those who do a lot of physical activity also needs more water

*Shikha*  
PRINCIPAL  
Central India Women's College Of Education  
Nagpur

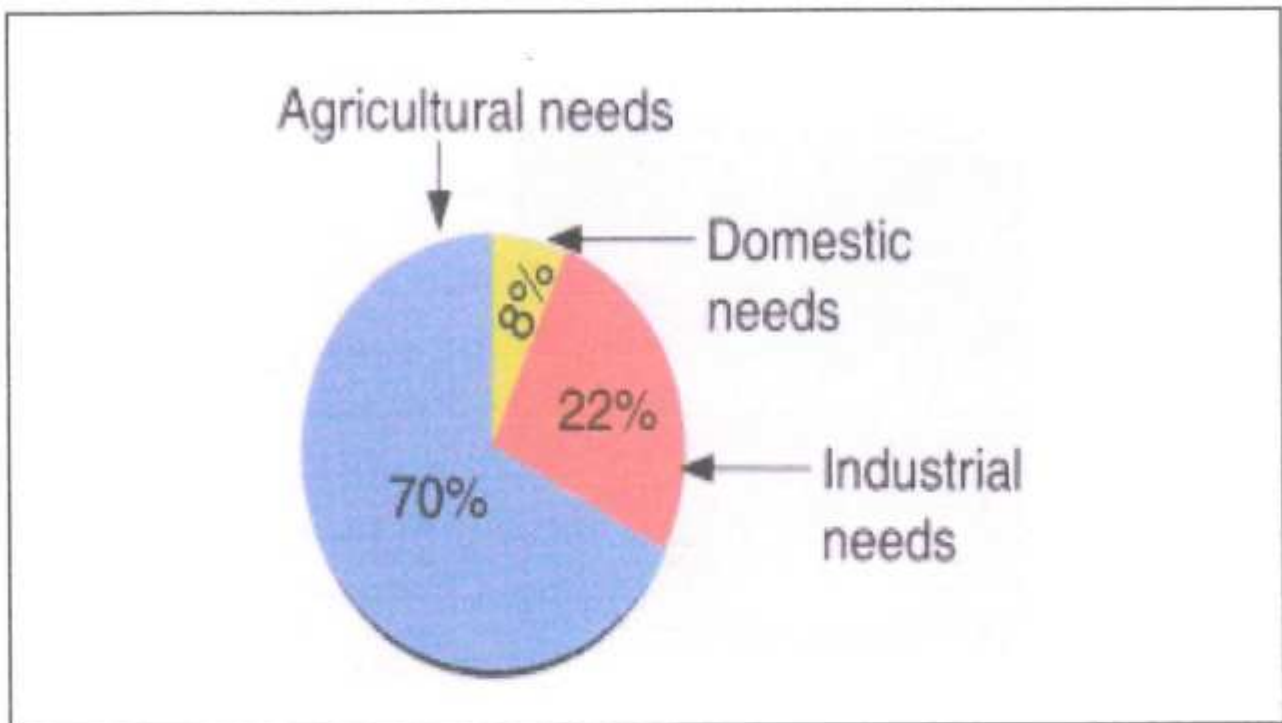

### Most common reason for increased demand of water

- Increase in population
- Increase in agricultural activities
- Increase in industrial activities
- Increase in household activities involving water

*Shukla*  
PRINCIPAL  
Central India Women's College Of Education,  
Nagpur

## Water Shortage

- Water shortage happens when an area does not have enough water to meet the requirements of the people who live there
- Shortage of water is caused by too much demand and shortage of supply

Shikha  
PRINCIPAL  
Central India Women's College Of Education  
Nagpur

## Why should we save water?

- Of all the water in the world only 3% is fresh water
- Less than 1% of this fresh water is available for human use

Shukhale  
PRINCIPAL  
Central India Women's College Of Education  
Nagpur

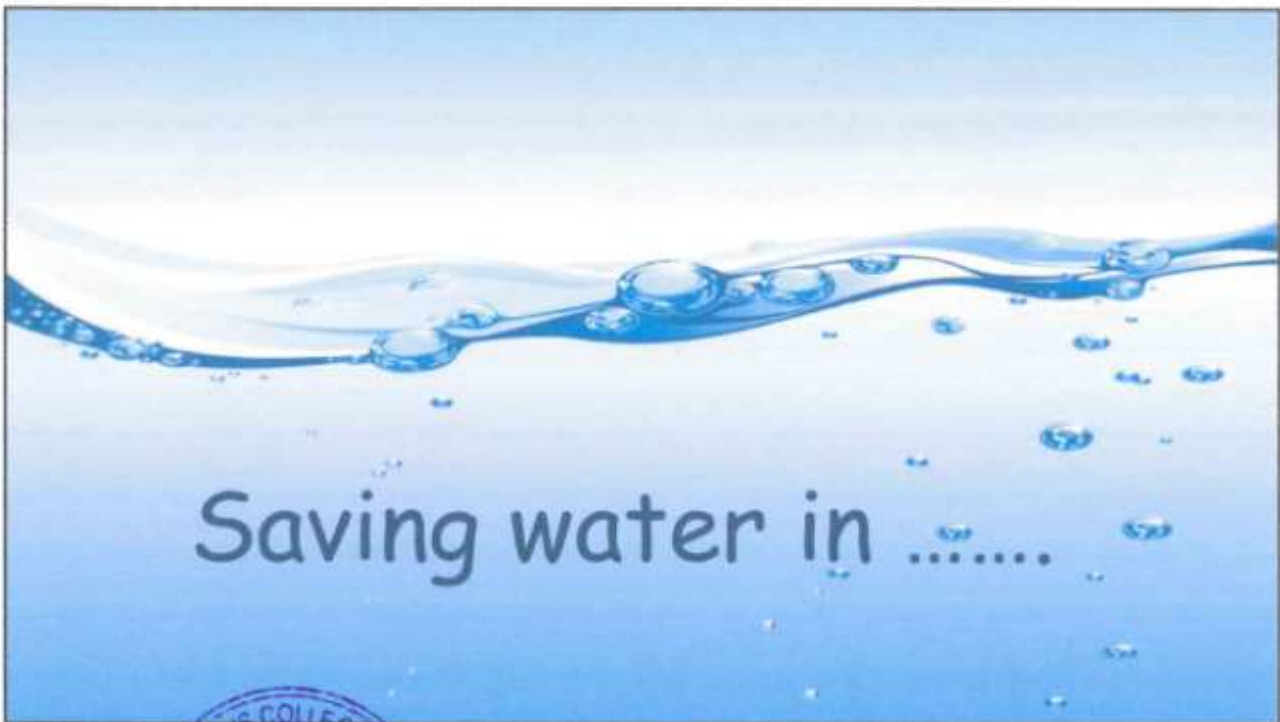

## Water Conservation

Water conservation is the practice of using water efficiently to reduce unnecessary water usage and wastage.

## REPORT ON OER

### CRITICAL ANALYSIS OF OER, AUTHENTICATION AND IMPACT OF OER

1. Open Educational Resource (OER) and Open Access (OA) are becoming valuable source of information on different subjects with evidence based knowledge useful for teaching as well as learning.
2. It is great contribution of ICT in the area of learning.
3. These are freely accessible open documents and media.
4. It is a leading trend in distance education.
5. The OER is prepared by the great educationist, philosophers and teachers across the globe.
6. The development and promotion of OER is often motivated by a desire to provide an attractive alternative or enhanced educational paradigm.

7. With the advent of growing international awareness and implementation of OER,

a global OER logo was adopted for use in multiple languages by UNESCO.

8. The mission of OER is to reduce the cost of education and increase the access to K-12 education world wide.
9. Learning science with OER is to reduce the cost of education and increase the access to K-12 education. It is very informative and knowledgeable.
10. The interactive videos, games, etc. are a good way of learning by visualizing.

### TYPES OF OER :-

Types of OER includes full course, course material, modules, learning objectives, open text books, videos, softwares, tools, techniques, etc to support and access knowledge.

The free contents from across the world connects us to "GLOBAL COMMUNITY".

### CONTENT TYPES :-

OER can be separated by content types into 4 groups -> Text

- Video
- Animation
- Multimedia

OER is free and available with updated information.

1. Multimedia Education Resource for Learning and Online Teaching (MERLOT) :-  
It consists of assessment tools, assignments, case study, practice session, training materials, workshops, drills, e-portfolios
2. Massive Open Online Course (MOOC) :-  
It is an online course aimed at unlimited participation and open access via the web in addition to traditional course material such as videos, problem set and reading.
3. Open Course Ware (OCW) :-  
These are course lessons created at universities and published gratis via the internet.
4. Open textbooks and textbooks which are freely used by students, teachers and others. Many open text books are distributed in either print, e-book or audio formats that may be downloaded

The difference between open textbooks and traditional textbooks is that the copyright permission on open text books allow the public to freely use, adapt and distribute the material.

OER OBSERVED AND BROWSED:-

<https://towson.libguides.com/oer>

RELEVANCE WITH SCHOOL SUBJECTS :-

1. The OER [towson.libguides.com](https://towson.libguides.com) is an informative online resource.
2. It provides practical, innovative solution to enhance the learning teaching experience by faculty, staff, informative topics related to school subjects science and maths.
3. It has interactive live online chat sessions, expert lectures, practical oriented videos, animations, games and practice sessions.
4. It provides active and collaborative learning technique resulting into long lasting experience, learning science with more informative and knowledgeable

## WHAT NEW THINGS I LEARNT FROM THIS OER:-

1. The OER provides valuable information regarding to school subjects, topics and their applications.
2. The new informative ways of teaching includes more of audio visual techniques rather than the lectures.
3. It creates an everlasting effect in the minds of students as well as teachers.
4. The concepts gets cleared very easily and effortlessly.

## EFFECTIVENESS AND USABILITY OF OER:-

It empowers us to move forward and achieve the skills required to become successful academically and in life. It helps to gain in depth knowledge.

## HOW THIS OER WILL HELP ME IN TEACHING LEARNING PROCESS.

1. It should help in making education accessible to all world wide, by reducing the cost and easy availability of the subject materials.

Shilpa  
PRINCIPAL

2. The texts, videos, games, case studies, experiments, assessments, etc. provides a wide range of materials related to any subject topics at different levels.
3. It is one way towards "Right to Education" globally.

1.	WITH THE USE OF ONLINE SURVEY TOOL COLLECT INFORMATION ABOUT AN EDUCATIONAL PROBLEM AND WRITE A REPORT	1-3
2.	VISIT EDUCATIONAL WEB SITES / VIDEOS AND WRITE COMMENTS ON USEFULNESS RELATED TO A TOPIC OF INTEREST.	4 - 8

Shilpa  
PRINCIPAL  
Central India Women's College Of Education

Q1. With the use of online survey tool collect information about an educational problem and write a report. (15 marks).

Ans. Expensive education in India

An official survey shows that educational spendings has gone up sharply in India, forming a huge financial burden on households.

One of the few aspects of the Indian development project that is supposed to have seen some recent success is the education sector.

However as per the surveys conducted on "Household social consumption of Education in India" provides disturbing results. This expansion in education has created a situation in which education beyond secondary level is essentially unaffordable for most working people and even school education involves costs for families that can be very high.

After primary education is clearly affordable. There after, the sharp increase in cost comes up at secondary

Topic.....

Date.....

level, when spending nearly doubles in rural areas. Tertiary education is really quite expensive, with even rural areas indicating high spendings on this.

The Right to Education Act 2009, specified that school education would be free and compulsory and the spirit of that legislation clearly required the cost of elementary schooling would be borne by the state. Yet only a minority of students receive free education and less than a quarter in urban areas. And there are also other costs associated with schooling such as textbooks, uniforms, transport - which also add to the financial burden on household. And in this respect very few students received any assistance.

Further, it turns out that even for government institutions, cost rise sharply with the level of education on offer. The difference in spending on government institutions compared to private ones is very large until secondary education. At graduate and post graduate levels there is not much difference between private, government aided institutions.

It is striking that for private unaided

institutions, the expenses for higher secondary schooling is almost equal to post graduate level

Essentially this means that not only poor but the middle class people are squeezed out of education beyond secondary schooling.

The survey shows that only a small proportion of households had anyone studying for a graduate degree among the casual workers

It is worth noting that the actual fees form only a part of the total expenses involved in education. Interestingly, private tuition costs remain significant, suggesting that the quality of the institutionally provided learning is not good enough to meet the felt needs of students, despite the related high costs. ✓

This survey suggests that the recent expansion has come at a substantial cost to families just to educate their children. These aspirations for betterment are increasingly risky given the terrible state of job market

unequal access and high personal costs involved in educating more young may well be a drag on society; both environment condition and educational access needs urgent policy action.

Q2. Visit educational website and write comments on usefulness related to a topic of interest and send comments by email to teacher educator and team leader student teacher. (10 marks).

Ans. An email to a teacher regarding an educational website - "Khan Academy".

Dear Teachers,

While browsing I went through Khan Academy website and found it very useful.

It is one of the best resources for learning on the web. It is free. This interactive website is filled to the brim with fantastic content led by professional and teachers who are experts on the content with the occasional celebrity appearance. Most learning is done through fun interactive quizzes. It is full with courses for every level from elementary school to college. This is a website for learners, teachers and parents also. The mission is to provide free world class education.

The website is aligned properly and looks simple but easy to browse. The complete information can be gained by scrolling

PRINCIPAL  
 Central India Women's College Of Education  
 Nagpur

up and down. It has various tabs on which we can tap and get the information.

The website is user friendly. It contains several tabs, graphics, animations, Texts, links and hyperlinks.

The background of the website is white in colour. The write ups are in black colour which makes it clearly visible and readable. It is bright multicoloured attractive pictures.

The website is easily accessible for all because it has age specific tabs with age specific and appropriate contents.

It addresses to the learning queries of student teachers and parents along with scientific explanation which are depicted in the form of videos and interactive sessions. It develops a scientific outlook also among the users.

The website has an interactive mode also where users can interact with counsellors through live video call or live text chat. It also has videos and games incorporated in it to solve the queries.

Khan Academy is a web friendly website.
